

T-1, (3-mm) Round, Bi-level PCB Mount LED Indicator Array, G784B Series

www.ledidea.com

The G784B is a right-angle view assembly of 8 T-1 LEDs arranged in 2 rows of 4 each. This indicator array is designed for handling ease to save assembly labor and to maintain alignment from column to column. The four pairs of LEDs are located on a 4.4 mm (0.173") pitch. A long array of arbitrary length can be made up by intermixing our G784B series with the matching G78B. This series can also be supplied with pinout reversed from that shown by adding "-RL" to the order code of the part number.

Specify part desired as follows:

G784B/Order Code LED1 + Order Code LED 2 + ... + Order Code LED 8

For example: "G784B/4H+4G" designates an assembly with 4 red LEDs on top and 4 green LEDs on the bottom.

"G784B/(4H+4G)-RL" designates the same assembly with all lamps having reversed polarity
