## T-1 LED Indicator, Right-angle, PCB Mount G946B Series

www.ledidea.com

The G946B is made up of 2 T-1 LED lamps assembled into a black plastic holder. The leads are formed at right angles to the light emitting side of the assembly for through hole mounting on PCBs. The design of the G946B holder maintains all external dimensions but will be cored in appropriate places to minimize sink marks. Material of the housing is black Nylon 6/6 with fiber, rated UL94V0. Please note that the dimensions are in inches.

Specify part desired as follows:

G946B/Order Code LED1 + Order Code LED 2

For example: "G946B/H+G" designates a red LED on top with a green LED below.
